UNIT 09. ACTIVITIES 01

1. EXERCISE 01

Investigate what kind of “tapes” are used in business to store backups.

- Can you explain with your words how they work?
- Which are the main features of those devices?
- Could it be used to store Backups?

Share your answers in forum.

2. EXERCISE 02

Investigate what is a “NAS” device (Network Attached Storage). You can find information in places like https://es.wikipedia.org/wiki/Almacenamiento_conectado_en_red

- Can you explain with your words how it works?
- Which are the main features of those devices?
- Do they usually support RAID systems?
- Could it be used to store Backups?

Share your answers in forum.

3. EXERCISE 03

Try to found “backup policies” templates examples (for example, from <https://preteshbiswas.com/2020/01/30/backup-policy/>).

Using them, try to write a “backup policy” for a fictional business. Share it in forum and discuss its advantages and disadvantages.

4. EXERCISE 04

Do a summary and a Scheme of different RAID types in order to help you to study for the exam.
