ENGLISH ASSESSABLE ACTIVITY 08

VIDEO TUTORIAL 2 - DEPLOYING ODOO WITH DOCKER COMPOSE

1. WHAT IS THE TASK ABOUT?

In this task, we will do a video tutorial about deploying an Odoo server using a Docker Compose file ("docker-compose.yml") provided by the teacher.

- **Objective 1:** to learn how to do a video tutorial.
- **Objective 2:** to improve the oral competence.
- **Objective 3:** to use specialized technical vocabulary.

2. WHAT WILL I BE GRADED IN?

 **Important:** you should do this activity by yourself. Using tools like ChatGPT, DeepL, Google Translate or help from a human person is punished as copy with every consequence (fail of the complete module).

Grade	Cohesion	Congruence	Mistakes	Number of words	Vocabulary	Expressions
Less than 5	Bad	Bad	More than 15	Not OK	Poor	Poor
5	Bad	Bad	Between 15 and 11	OK	Poor	Poor
6	Regular	Regular	Between 11 and 8	OK	Regular	Regular
7	Acceptable	Acceptable	Between 4 and 6	OK	Acceptable	Acceptable
8	Good	Good	Between 2 and 4	OK	Good	Good
9	Very good	Very good	Between 1 and 2	OK	Very good	Very good
10	Excellent	Excellent	Any	OK	Excellent	Excellent

- **Cohesion:** concordances between subject and predicate, correct verb tenses and connector applications.
- **Coherence:** integrity between the different paragraphs or parts of the letter (introduction, development and conclusion). Use of structures appropriate to the type of content.
- **Mistakes:** number of grammatical, lexical and syntactical mistakes.
- **Vocabulary:** use of specific vocabulary.
- **Expressions:** use of typical English expressions appropriate to the content.

Also, for this task, fluency and pronunciation will be graded.

3. DESCRIPTION OF THE TASK

The target of this task is to explain, what is a Docker Compose, and main options with their differences (up, down, start and stop).

To do this, you should use this “**docker-compose.yml**” file provided.

You can find more information about Odoo

in <https://github.com/sergarb1/ApuntesSistemasGestionEmpresarial/> and more concretely about deploying with Docker in

<https://github.com/sergarb1/ApuntesSistemasGestionEmpresarial/tree/main/valencia/UD03>

For that, you are going to do a video tutorial of 4-5 minutes talking about how to do it.

You have to start the video with this sentence:

"Hello, my name is [name] [surname], and I'm going to explain basic operations in a Docker Compose to deploy an Odoo server." You can read this page to learn how to do a good video tutorial: <https://www.incomediary.com/ultimate-guide-making-online-video-tutorials>

You can use this software to do it: <https://obsproject.com/>
