UNIT 01. ACTIVITIES 01

1. EXERCISE 01

Investigate the “Modified Harvard architecture”.

You can obtain information in https://en.wikipedia.org/wiki/Modified_Harvard_architecture

Post the main differences with “Von Neumann architecture” in the forum and discuss them with your classmates.

2. EXERCISE 02

Summarize how “Von Neumann architecture” works.

3. EXERCISE 03

Summarize the instruction cycle. Explain it with examples that help you to understand it.

4. EXERCISE 04

Try to find 2 samples of CISC CPUs and 2 samples of RISC CPUs. Share them in the forum and discuss them with your classmates.
