UNIT 10. ACTIVITIES 01

1. EXERCISE 01

Using DRBL (or CloneZilla) create an image of the main partition of your hard disk. Save it in an external hard disk.

Share in forum your problems or if you have success without any problem :)

2. EXERCISE 02

Using DRBL (or ClonZilla) restore your image in a Virtual Machine. Note that you will need a virtual disk of at least the size of your partition. You can follow this video as a reference
